Hi,

Attached are the site specific planned obligations we currently have in SEMS. Please understand that I'm still working on the updates I received from MT that may not be listed on the report. This is the report that HQ will be using to run the 3 year planning in SEMS. Tyler and I are still in the data validation mode for the recent migration that occurred the last week of May. We have validate many sites, but have not finished them all. HQ would like the 3 year planning done by Nov. 1st.

Thanks
Dianna
